

BUILD WITH

MME.
SMITHANIK

APR 20-24

1. Pick a project to build.
2. Take a photo/video.
3. Send/post it and I'll write you back!

MATERIALS

Use whatever materials you can find at your house.

Examples:

- empty cans
- books
- blocks
- cardboard
- newspaper
- plastic cups
- toilet paper rolls
- your choice - be creative!

1. TOWER

Make the tallest tower you can.

Which is taller, you or your tower?

Fun idea: Build with a family member!

2. TUNNEL

Make the longest tunnel you can.

If you talk from one end, can another person hear you on the other? Try it!

Fun idea: Build in some twists and turns!

3. WALL

Make a wall as wide as you can.

How many steps does it take for you to go from one end to the other?

Fun idea: Think of a way to include a door in your design!

HAVE FUN!

I'm excited to see everyone's designs and creations.

Don't forget to send me a photo or a video.

Until next time,
Mme. Smithanik
